

The Covid-19 Shots Trigger Acute Tinnitus. “Stockholm Syndrome”: A Hell of a Drug

The ostensible purpose of the Stat News essay below is to promote transparency from the government and pharmaceutical industry regarding the risks and drawbacks of whatever injection they have on deck next.

Via [Stat News](#) (emphasis added):

“In February 2021, I received my second Covid-19 shot — the newly developed vaccine that would eventually save millions of lives worldwide — with great anticipation. It proved to be a life-changing event: Two hours later as I was driving home, the shock of a sudden loud and high-pitched whistling nearly caused me to veer off the road. It was as if an audible dog whistle began blaring right next to me. But it wasn’t a dog whistle. It was the acute onset of tinnitus, a ringing in the ear with no external source.

For several years I had lived with minimal, intermittent tinnitus, but never anything like this, so loud and unrelenting.

Could the Covid-19 vaccine have amplified my tinnitus, or was this just a coincidence? I was suspicious, but at that time no data had demonstrated any relationship between the mRNA Covid-19 vaccines and tinnitus.

When I got my third dose in November 2021, the sound became even louder and more bothersome. This new noise level has continued to this day, nonstop, often keeping me from sleep and sometimes bringing me to tears.”

Yet it segues, bizarrely, as most articles in mainstream media on the topic of COVID shots do, with a meandering caveat about how great they are — even while the author concedes that they caused him personally life-altering effects due to a massive orchestrated cover-up campaign in the media and by Public Health™ authorities, which is, again, the entire ostensible point of the exercise.

Continuing:

“As someone who has studied vaccines for 40 years, I know that the mRNA Covid-19 vaccines, and other vaccines, have saved millions upon millions of lives. For the vast majority of people, the benefits of getting vaccinated far exceed the risks...

Although the Covid-19 vaccines were a huge public health success, politicization and opposition to them became weaponized through disinformation for political gain. Whether or not to receive a Covid-19 vaccine became an expression of opinion, rather than an informed health decision, and this has had a trickle-down effect to other

vaccines.”

The link between tinnitus and the shots is well-established; the corporate state media, for whatever reason, has even deigned to cover it.

Via [NBC News](#) (emphasis added):

“Thousands of people say they’ve developed tinnitus after they were vaccinated against Covid...

Shaowen Bao, an associate professor in the physiology department of the College of Medicine at the University of Arizona, Tucson, believes that ongoing inflammation, especially in the brain or spinal cord, may be to blame.

Bao, a longtime tinnitus sufferer and a representative of the American Tinnitus Association’s scientific advisory board, has studied tinnits for more than a decade.

A Facebook group of people who developed tinnitus after getting a Covid vaccine convinced Bao to look into the possible link. He ultimately surveyed 398 of the group’s participants.

The cases tended to be severe. One man told Bao that he couldn’t hear the car radio over the noise in his head while driving.

Along with ringing in their ears, participants reported a range of other symptoms, including headaches, dizziness, vertigo, ear pain, anxiety and depression. Significantly more people first developed tinnitus after the first dose of the vaccine, compared with the second.

This suggests “that the vaccine is interacting with pre-existing risk factors for tinnitus. If you have the risk factor, you will probably get it from the first dose,” Bao said.”

So, the point being: the above admission of COVID shot-induced tinnitus jives with the author’s experience.

Severe tinnitus from an experimental gene therapy pushed through emergency use authorization based on fraud: grounds for a lawsuit, at least, if not summary executions.

But not for the good doctor; he’s more of a masochist, and he loves his Pfizer leather-daddy something fierce. He *makes* Pfizer Daddy hit him with all of his constant crying. If he would just shut the fuck up and do the dishes, marital harmony might be restored and he wouldn’t have to tell the emergency room staff he fell down the stairs again.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. –Edward Curtin
